

## SPECIFICATION

### Backlit Clear 200 glossy

Ultra clear high quality polyester film for backlit application in combination with acrylic backlit plate. Printable with high ink density, which leads to high print quality achievable with comparably low ink amount. Fast image drying saves production time.

End use: Lightbox advertising, illuminated displays, special backlit applications.

Furnish: 100% polyester.

Finish: Glossy

Ink compatibility: Latex, UV, eco-solvent and solvent.
