

ECO Frontlit PP Std

Made of 100% polypropylene nonwoven material, 125g/m² thickness, banner material. The ECO Frontlit PP Std is a GREEN versatile lightweight alternative to PVC coated banners.

The material is extraordinary in terms:

- 100% recyclable banner material;
- tear resistant;
- perfectly weldable like regular banner material;
- good light transmission (light diffusion).

End use: Regular outdoor banner application, indoor and outdoor.

Furnish: 100% PP

Finish: Matt.

Ink compatibility: UV inks and Latex inks.
