

Pop-Up Film Premium 1300 - 350

PVC free, made out of PET and PP composite, makes this Pop-Up Film very durable, easy handling and perfect choice for both roll-up and pop-up system. Rigid 350 micron thickness design allows for a dimensionally stable product with No-Curl properties.

The material is extraordinary in terms of:

- very high printing quality;
- dimensional stability (no curl).

End use: Hi-end Pop-Up and Roll-up display systems.

Furnish: polypropylene and polyester.

Finish: Matt.

Ink compatibility: Latex, UV, eco-solvent and solvent.
